

C6 all-electric cable pulling winch

We solved the problem where we can build an all-electric C6 60 kN cable pulling winch with a pulling speed of 0-10 m / s for a 3500 kg trailer.

Technical details:

- Traction capacity 6 tons (60000 N). Wires 16 mm Certex 700 m.
- Rewind speed with 0-10 m / min adjustment. Traction adjustment 0 - 6 tons.
- 6 hours continuous pull time.
- Energy charging 12 hours max.
- Operating temperature -15 to +30 degrees.
- Transport trailer 3500 kg.
- Remote-controlled.
- The recording device registers traction and traction.
- Work lights 3 led lights.
- Guarantee 12 months.
