

## Eminko M8 – Full Electric Container Handling

### The Future of Port Logistics Starts Here

Port and logistics operations are undergoing a major transformation. Companies are seeking smarter solutions that combine performance, sustainability, and cutting-edge technology.

**Introducing the Eminko M8** – a full electric container handling machine designed to redefine efficiency and responsibility in maritime logistics.

#### Why Eminko M8?

-  **100% Electric Operation**  
Zero emissions. Zero compromises.
-  **High-Performance Precision**  
Engineered for demanding environments.
-  **Low Maintenance & Quiet Operation**  
Reduced costs, increased comfort.
-  **Tailored for Ports, Terminals & Logistics Hubs**  
Built to meet the needs of modern infrastructure.

#### More Than a Machine

The Eminko M8 is a strategic investment in a cleaner, more competitive future. It's not just about moving containers—it's about moving the industry forward.

#### Join the Movement

We've launched the M8 project and are inviting visionary companies to be part of the change.
